

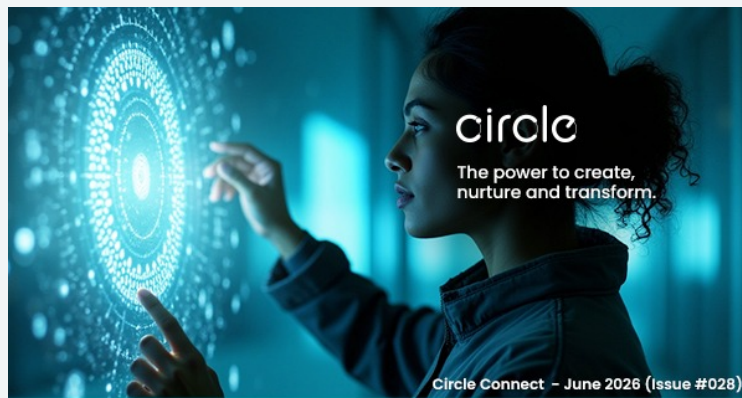

Exhibitions | Identity Week Europe 2026: Showcasing Advanced Security Frameworks

AB Circle is excited to announce its upcoming participation in Identity Week Europe 2026, taking place from June 9–10 at the RAI Exhibition Centre in Amsterdam. As Europe rapidly transitions toward robust passwordless infrastructure and secure digital identity frameworks, we are proud to be at the forefront. At Stand 1022, our team will showcase our cutting-edge hardware portfolio, featuring our next-generation NFC readers, compact mobile ID devices, and our flagship CircleONE Touch biometric FIDO2 security card. Join us to discover how we deliver the scalability and compliance required to protect modern enterprise and government infrastructure.

Exhibitions | ID4Africa 2026: Fostering Continental Digital Identity Partnerships

AB Circle successfully concluded its milestone inaugural participation at the ID4Africa 2026 Exhibition in Abidjan, Côte d'Ivoire. The prestigious event allowed us to engage with government officials, development partners, and key system integrators to align our high-performance solutions with Africa's strategic push for decentralized, inclusive digital identities. Visitors showed immense interest in our secure smart card readers, rugged mobile ID validation devices, and our flagship CircleONE Touch biometric security card. Moving forward, AB Circle is actively collaborating with regional partners on pilot projects to deliver the reliable hardware foundations needed for sustainable economic and social progress.

Exhibitions | EDIX Tokyo 2026: Driving Educational Digitalization and Zero-Trust Security

AB Circle Japan successfully wrapped up its joint exhibition with Computer Engineering & Consulting (CEC) at EDIX Tokyo 2026. Held at Tokyo Big Sight, the event highlighted our combined commitment to safer, more efficient academic environments. Alongside our market-proven My Number Card readers, we showcased innovative school bus boarding systems, our biometric CircleONE Touch keys for secure teacher logins, and campus mobility solutions. By merging our IoT hardware with CEC's robust Zero-Trust Security Pack, we provided academic institutions and educational boards with the precise, integrated tools required to defend their data while enhancing overall campus safety.
