Solution | Launch of Identity Verification Solution for Financial Institutions Compliant with 2027 Act on Prevention of Transfer of Criminal Proceeds Amendments

In collaboration with SystemGear and Kanaden, AB Circle Japan has launched an identity verification solution for financial institutions designed to comply with the upcoming amendments to the Act on Prevention of Transfer of Criminal Proceeds, scheduled to take effect in April 2027. The "CIR715A"—an IC chip-compatible identity verification reader featuring an integrated application—facilitates identity verification by utilizing data stored on IC chips in documents such as Individual Number Cards and driver's licenses. The solution supports identity verification not only at service counters but also during off-site visits by field representatives, enabling both regulatory compliance and operational efficiency. It contributes to establishing secure and reliable identity verification environments across a wide range of industries, including the financial sector.

Exhibitions | AB Circle Drives Healthcare & Nursing Digital Transformation with Long-Term Care Information Platform Implementation Support at MEDICAL JAPAN 2026 TOKYO

AB Circle Japan will exhibit at the MEDICAL JAPAN 2026 TOKYO - 9th MEDICAL / ELDERLY CARE / PHARMACY WEEK TOKYO from October 7 to 9, 2026, at Makuhati Messe (Booth 1-13). As Japan's nursing care sector accelerates its digital transformation, AB Circle will highlight its implementation support for long-term care providers adopting the Long-Term Care Information Platform (介護情報基盤). The company will present highly reliable smart card readers and integration services designed to streamline administrative workflows and ensure secure data exchange. Visitors can meet with dedicated specialists for tailored consultations and receive on-the-spot quotations to plan immediate deployments. Web pre-registration is required.
